

Xerox Microfilms:

(our attempt to grow a little smaller.)

We've grown famous with copiers. Scientific with computers. And quite big in the whole area of information management.

Now we'd like to grow in another direction with Xerox microfilms.

And since we have quite a reputation to uphold, you can be sure we're offering more than a copy.

We think our microfilms are a little better, more consistent, and a lot easier to use (whatever equipment and chemicals you prefer). And we'll gladly provide free samples to prove it. We have Negative Anti-halation Undercoated XMH (16, 35, 105mm)

for planetary cameras; Negative Dyeback XMD (16mm) for flow-type cameras; and Positive XMP (16 and 35mm) for contact film printers.

One other thing: To simplify ordering, speed deliveries, and reduce your inventories, you can order it direct from your local Xerox Sales Office for fast shipment from our Regional Supply Centers. Consult your telephone directory.

That's another original from Xerox Corporation, Business Products Group, Dept. HR, Rochester, New York 14603.

and more are on the way!

You can now get for your library definitive works in various subject categories reprinted on microfiche. Designed to meet the needs of both large and small libraries, Microcard Editions' program is significantly different from other "packaged" projects. With our plan you know in advance what you are getting, you can choose the sections you need, those that fit your budget, and you can get immediate delivery.

■ Only titles already selected by qualified experts are included in our program. You can readily check the titles, selection criteria and selectors' credentials in *Books for College Libraries*, published by the American Library Association.

■ Small subject groupings of titles allow you to choose *only* what you need. Each group is independent, ranging in price from \$200 to \$600, and may be purchased separately—no long-term commitment is required.

■ Our standard 4" x 6" fiche fits *your* standard equipment—you save the expense and bother of adding new readers. Only one title appears on each fiche for ease and flexibility in filing.

LET US REPLACE YOUR CARD CATALOG WITH AN INEXPENSIVE PAPERBACK.

If you've wanted to convert to a book catalog but haven't because of economic considerations, we'd like to talk to you about your economics.

It does cost something initially to change over. But the statistics indicate that you get it all back.

Based on 1970 contracts, the average cost per title for all our book catalog customers came to under \$1.25.

But for libraries still using card catalogs—even if they actually catalog only 20% of their acquisitions—the cost comes out to something like \$2.60 per title. If you have 7,000 new acquisitions a year, for example, you save \$9,450. (A book catalog will require periodic cumulations, of course. But even with this expense,

most libraries come out ahead.)

Besides saving you money, a book catalog lets you do things you couldn't do with a card catalog at any price. Such as making a virtually limitless number of copies. And sending copies out of the library to interested teachers, students, and other librarians.

For complete facts and figures, write to Xerox Bibliographics, 2500 Schuster Drive, Cheverly, Md. 20781.

We're not suggesting that a book catalog will make your library rich. But the way costs are going up, it could be the only thing in your library keeping it from growing poor.

MEMO

TO: UNIVERSITY & COLLEGE LIBRARIES
FROM: BAKER & TAYLOR
**RE: HOW YOUR LIBRARY CAN ENJOY BETTER
STANDING ORDER SERVICE AND SAVE
MONEY, TOO**

Baker & Taylor offers university and college libraries the most efficient new-book standing order service available from any source.

Among other benefits, B&T's University & College Library New-Book Service offers your library the following:

- Screening, evaluation and selection of all new titles of interest to academic libraries handled by B&T's staff of professional librarians, experienced in the field of academic library book selection.
- Computer matching of titles selected for the program with your library's pre-established book requirements (by subject area or publisher) assures fast, complete and virtually error free delivery of desired titles.
- Full on-approval return privileges.
- Computer printed LC Cards offered at 15¢ a set for each title shipped for which original cataloging is available from LC.
- Exclusion slips for titles not meeting a library's standing order requirements are optionally provided, enabling the library to order these titles, if desired.

In addition to service advantages, B&T offers its standing order plan customers the highest discounts available from any book wholesaler. With tight library book budgets and increasing book prices, we are certain that you will want to compare prices. We believe that B&T prices will enable your library to purchase more books within your current budget.

ON BOOKS THAT AREN'T

Newly revised for 1971, the 664-page Xerox Out-of-Print Book Catalog is substantially more comprehensive than the nearest contender—the 490-page 1970 Xerox Catalog.

This year's version lists 45,000 titles, making us again the largest out-of-print book publisher in the world.

Missing from this otherwise complete catalog are some 10,000 other titles that we'll publish this year. They're not listed for an excellent reason: we don't know what they are yet.

Every year, in response to thousands of requests, we track down out-of-print books, put them on microfilm, and publish them xerographically. In quantities as small or large as requested.

That way, librarians and scholars end up with books they might not otherwise have, and we end up with more titles in our catalog. (To keep you up-to-date on these new findings, we also publish *The O-P Bookfinder* as a monthly supplement.)

Write us for your copy, free of charge. If you're ever looking for an out-of-print title, chances are good you'll find it there.

But if you can't find it in our catalog, you can always consult a more comprehensive source.

The name of Frances Neel Cheney is a distinguished one in contemporary American librarianship. Member of the Reference and Subscription Books Review Committee of ALA, writer of a monthly column on current reference books for Wilson Library Bulletin, professor at The Peabody School of Library Science, she is supremely well qualified to write this book.

FUNDAMENTAL REFERENCE SOURCES

FRANCES NEEL CHENEY

FUNDAMENTAL REFERENCE SOURCES provides an introduction to selected sources of bibliographical, biographical, linguistic, statistical, and geographical information, and offers detailed suggestions for effective use of these sources in selection, acquisition, and cataloging of library collections.

As a textbook in library school courses, or in day-to-day use by librarians, FUNDAMENTAL REFERENCE SOURCES is an indispensable handbook, in the tradition of Shores' *Basic Reference Sources*—now out of print—and of Winchell's *Guide to Reference Books*.

AMERICAN LIBRARY ASSOCIATION

50 East Huron Street, Chicago, Illinois 60611

The 20,000 volume **microbook** Library of American Civilization takes less space than 2 sets of Britannica.

In book form, all the volumes in this library would take over 2,000 feet of shelf space. But in Microbook form, the 20,000 volumes store in 32 standard card file drawers.

But space-saving is just one benefit. If you were able to purchase all of these volumes, it is estimated the cost would be in excess of \$450,000 plus cataloging and shelving. In Microbook form the cost is \$21,500. Including 15 sets of author, title, and subject catalogs plus 15 sets of the 3-volume Biblioguide™ Index. The library comes complete, ready to use the day you get it.

The Library of American Civilization includes the most significant 20,000 volumes of retrospective source material on Americana. Because of their value and rarity, many of these volumes have only been available to a few select scholars. Now, anybody can read them.

The Microbook format puts up to 1,000 pages on a single fiche, or card. And for convenience of reading, storage, retrieval, and check-out there is one book per fiche for most single-volume works. Each 3" x 5" fiche comes in a card-file size envelope with Library of Congress bibliographic information.

Library Resources, Inc.

Extraordinary Microbook quality demanded extraordinary reader quality. Two new readers have been developed. A lightweight and portable lap reader for lounge chair or table reading in the library, at home, or office. And a new desk reader. Both readers deliver high-quality Microbook images in room light for comfortable extended reading.

The Microbook Library of American Civilization, an historic advancement for the modern-day library. For complete information, and a copy of our new 20-page booklet, "The Microbook Library Series," please write to the address below.

Comparison: one volume, one fiche.

BUY THE ECONOMY SIZE AND SAVE.

If periodicals came in the same size as microfilm, they'd be about as big as the one we've shown here.

Of course, that would make them impossible to read. But they'd almost be worth having anyway.

For one thing, they'd save you vast expanses of space. A microfilm-size periodical would take up 94% less space than a periodical-size periodical.

You'd also save on the vast expenses of space. Library storage space is now around \$2.72 per square foot and soaring. And for what you now pay to store one volume of standard-size periodicals, you could store over 11 of our "economy size" ones.

You could, that is, if there were such things. But as you know, periodicals don't ordinarily come in economy size.

We only mention it as a reminder that microfilmed periodicals come in nothing but.

University Microfilms sells periodicals on 16mm or 35mm microfilm and microfiche. For more information on them write to University Microfilms, Dept. 114, 300 North Zeeb Road, Ann Arbor, Mich. 48106.

Bro-Dart's new Sysdac Mark IIITM

And who knows? In some libraries, you may never need a computer with the new Sysdac working for you. Sysdac Mark III, for example:

- ☐ maintains complete borrower's record on book card without consuming it.
- ☐ resettable counter eliminates hand tallies
- ☐ eliminates retyping of book cards
- ☐ eliminates registration files
- ☐ eliminates date due cards
- ☐ speeds up book slipping
- ☐ has new quiet, velvet-smooth motor

It's available for book card filing in a Master Book Card File as a Tab-Out system or, for conventional date due book card filing, as Tab-In system.

Can be used with any book card including data processing cards. The only new form you'll need is the Sysdac plastic borrower's I.D. card.

And you know it's dependable. After

all, it's the successor to the Sysdac I and II that have been proven by school, public and college libraries for years.

The Sysdac Mark III may be purchased, rented, or a lease-buy arrangement can be made.

NOW AVAILABLE IN THE U.S. FROM GALE

SELECTED BOOKS FROM EUROPA PUBLICATIONS LTD.

Gale recently arranged to distribute in America selected publications of the distinguished British firm, Europa Publications Limited. The current and forthcoming titles described below will fill serious gaps in the reference collections of American libraries. Earlier editions of most of these reference works have been cited in such authoritative guides as *American Reference Books Annual*, *Walford*, and *Winchell*.

AFRICA SOUTH OF THE SAHARA, 1971. 1st Edition. This new addition to Europa's series of regional reference sources is a survey and reference book of all the countries south of the Sahara presented in a continental perspective. Noted experts in African studies have contributed introductory essays on the economic and social development of the continent and detailed articles dealing with the area's recent history, its physical and social geography, and its economy. Included are statistical surveys, directories, maps, and a "who's who," plus other basic reference material. (Ready March) About 1,000 pages. \$28.50.

THE EUROPA YEARBOOK, 1971: A World Survey and Directory of Countries and International Organizations. 12th Edition. "Europa Yearbook is known for its up-to-date, accurate and comprehensive coverage." (American Reference Books Annual) The international organization section offers details on over 1,500 international governmental and nongovernmental organizations, alliances, associations, etc. Information furnished on each country in the world includes general and statistical surveys of recent history and economy, plus facts on its government, industries, communications, etc. (Ready June) Two Volumes. About 3,400 pages. \$60.00.

THE FAR EAST AND AUSTRALASIA, 1971. 3rd Edition. The first part is a general introduction to the area as a whole and deals with such topics as aid, development, and resources. The rest of the volume is divided into regions. Devoted to a specific country, each chapter contains a detailed survey of the country's physical and social geography, its history, its economy, etc. Also included are bibliographies for each region and country and a "who's who" of 1,600 important men and women. (Ready April) About 1,400 pages. \$28.50.

THE INTERNATIONAL DIRECTORY OF COMPUTER AND INFORMATION SYSTEM SERVICES, 1971. 2nd Edition. This directory presents in concise form full information about the computer services provided to outside customers by commercial, educational, and research establishments throughout the world. Listed are the names, addresses, phone numbers, and officers of the institutions, together with such data as

fields of experience, the types of services offered, and the type of computer installation. (Ready June) About 400 pages. \$15.00.

THE INTERNATIONAL WHO'S WHO, 1970-71. 34th Edition. This work is not only the standard source of biographical information about eminent personalities in every country of the world today but it is also the only place to find details on persons from the many countries having no national "who's who." The 34th Edition contains approximately 17,500 listings, over a thousand of them brand new; existing biographies have been revised and updated. All essential facts are presented. (Ready Now) About 1,775 pages. \$28.50.

THE MIDDLE EAST AND NORTH AFRICA, 1970-71. 17th Edition. The book includes a review of the year's developments in the area and a description of the physical and social geography, racial and linguistic groupings, religions, resources, etc. Covering 28 countries and regions, the chapters are similar in scope and features to those of *The Far East and Australasia*. (Ready Now) 1,005 pages. \$23.50.

THE WORLD OF LEARNING, 1970-71. 21st Edition. This book is firmly established as the comprehensive, up-to-date guide to educational, scientific, and cultural organizations all over the world. The first part is an annotated list, with addresses, of over 400 international organizations. Arranged alphabetically by country, the main section of the book gives complete information on universities, colleges, libraries, research institutes, museums, art galleries, and learned societies. "This is the standard directory on the subject." (American Reference Books Annual) (Ready Now) About 2,000 pages. \$35.00.
